

Be a Circular Pioneer 2024

Food | Submission form

as part of the Interreg Alpine Space CEFoodCycle project
More information: <https://www.alpine-space.eu/project/cefoodcycle/>

Type of submission	Please indicate:
Submission for an existing project in the food sector	
Submission for a planned project in the food sector	

Further information	Please indicate
Title of the project / of the project idea	
(planned) start of the project / of project idea	
(planned) end of the project / of the project idea	

To participate, please complete this file and send it to us by email to CircularEconomyFood@gmail.com by **Sunday, 31 March 2024**.
Certificates or other documents can be sent as attachments.

A. DESCRIPTION OF TRANSFORMATION POTENTIAL / MOTIVES / GOALS

(max. 1,500 characters incl. spaces)

What is the transformation potential of the project / project idea within the food industry? Please describe your motivation for starting or wanting to start this project / project idea. Please also include ecological, economic and social objectives.

B. CONTRIBUTION TO SDG`S

(max. 700 characters incl. spaces)

Please describe the extent to which the existing project / your project idea contributes to the 17 global sustainability goals (SDGs: <https://globalcompact.at/sustainable-development-goals/>).

C. CONTENT OF THE PROJECT IDEA/PROJECT

(max. 1,500 characters incl. spaces)

Please describe the content of the project idea/project in more detail and - if relevant - describe the nature and type of possible co-operation.

D. TARGET GROUP(s)

(max. 700 characters, incl. spaces)

Please describe which target groups your project / project idea targets and the measures defined for this purpose.

E. REVENUE MODEL / FINANCING / IMPACT

(max. 1.500 characters incl. spaces)

How is your project / project idea financed? If applicable, what is the revenue model (i.e. how are profits generated) and what is the ecological and social value generation in addition to the economic contribution? In concrete terms, this means to what extent does the implementation of the project idea contribute to an improvement in the challenges addressed? How is this contribution measured?

F. ADAPTABILITY AND SCALABILITY

(max. 700 characters incl. spaces)

What prospects does the idea have for application in other industries, sectors, regions, etc.?

Applicant Information

Contact details (applicant)

<i>First and last name</i>	
<i>Company / Organisation (optional)</i>	
<i>Adress</i>	
<i>Phone number / E-mail</i>	

Contact details (cooperation partner)

<i>First and last name</i>
