

**GMAR Robotics Summer School 2026**

# Industrial Robotics & Digital Twins

Gain insights into current technologies and trends in industrial automation, robotics, digital twins and secure industrial systems

**Salzburg University of Applied Sciences**

**August 31 – September 04, 2026**

**Certificate of participation (1 ECTS)**

**GMAR**

**FH Salzburg**  
Information Technologies  
and Digitalisation

## Why join?

### Learn by Doing

Hands-on sessions with industrial robots and digital twin technologies.

### Meet Industry

Exclusive visits to leading companies.

### Gain Future Skills

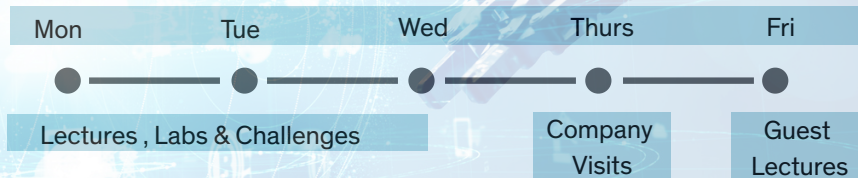

Explore automation, OT Security and Systems Engineering.

### Build Your Network

Connect with students, researchers and experts.

## What to expect?

## Who can apply?

Bachelor • Master •  
PhD • Early Career  
Researchers

## Registration

Fee: €150 includes lectures,  
labs, lunches, company visits  
and certificate.
